

[Grace Lutheran Church](#)

435 NW 21st St.
Corvallis, OR 97330
541-757-1600

Visual Production Specialist

Responsibilities:

- Programing/prepping vMix software for live streams weekly
- Preparing visual content for services
- Preparing weekly service “script” as needed
- Running/overseeing weekly Sunday service streaming
- Trimming service recording for Channel 29 usage

Requirements:

- Competency in live stream software. Basic programming for working with current vMix software.
- Basic editing skills for trimming and shipping service recordings.
- Basic understanding of camera and lighting techniques.
- Desire to learn and refine visual production and streaming skills. Coachable for learning current systems in place.
- Accountability for regular attendance and presence at services and rehearsals.
- Communication skills particularly with the Director of Music Ministries, the Audio Tech Specialist, and other members of the Worship, Music, and Tech teams.

Approximate Weekly Hours:

Sunday Service (warmup through postlude) - 2.5 hours

Sunday Post-Service (Channel 29 trim/edit and shipping) - 1 hour

Weekly program prep work (vmix prep/programming) - 1.5 hours

Weekly visual prep work (script, visual slides, credits) - 1.5 hours

Rehearsal (currently during band rehearsal, “dress rehearsal” for stream) - 2 hours

Approximate Total Weekly Hours: 8.5 hours

At \$20/hour totals \$8,840 gross annual income

Background: Grace Lutheran has been live-streaming worship services since July 2020 with a volunteer team. It has been the intention that a paid staff person would take this on, and we are developing training materials for others to learn the current processes. We also hope to continue improving the quality of our video production.

Position is open until filled

Applicants should send an email to Bryson Skaar, Music Director, detailing their interest and relevant experience (skaarb@oregonstate.edu)
